1 The age-standardised mortality rates for 2015 are standardised to the 2013 European Standard Population, expressed per 100,000 population. Age-standardised rates are used to allow comparison between populations which may contain different proportions of people of different ages. ASMRs are based on mid-2015 population estimates. For more information on these rates please see our [User guide to mortality statistics](#).
2 K04000001 is England and Wales; J99000001 is Elsewhere (outside England and Wales).
3 The deaths of those whose usual residence is outside England and Wales are included in total figures for England and Wales, but excluded from any sub-division of England and Wales.
4 The deaths of those whose usual residence is outside Scotland are included in total figures for Scotland, and are also included in any sub-division of Scotland based on where the death occurred.
5 The deaths of those whose usual residence is outside Northern Ireland are included in total figures for Northern Ireland, and are also included in any sub-division of Northern Ireland based on where the death occurred.
