1 Figures for England and Wales are based on boundaries as of February 2018

2 The age-standardised mortality rates for 2017 are standardised to the 2013 European Standard Population, expressed per 100,000 population. Age-standardised rates are used to allow comparison between populations which may contain different proportions of people of different ages. ASMRs are based on mid-2017 population estimates. For more information on these rates please see our [User guide to mortality statistics](#).
