Note: Infant, neonatal and perinatal mortality rates for local areas can fluctuate quite substantially between years due to the small number of deaths recorded at these ages.

1 Figures for England and Wales are based on boundaries as of May 2019

2 The age-standardised mortality rates for 2018 are standardised to the 2013 European Standard Population, expressed per 100,000 population. Age-standardised rates are used to allow comparison between populations which may contain different proportions of people of different ages. ASMRs are based on mid-2018 population estimates. For more information on these rates please see our [User guide to mortality statistics.](#)
